Performance: Every investment is associated with risks, especially with regard to fluctuations in value and return. Positive performance in the past or an indication of such is no guarantee of positive performance in the future. Collective capital investments are volatile and can also result in the total loss of the invested capital and any income. The performance data do not take account of the costs and commissions levied on subscriptions and redemptions of fund shares. Further, no guarantee can be given that the fund's performance will reach or exceed that of the benchmark. Positive performance in the past or an indication of such is no guarantee of positive performance in the future. Investments in foreign currencies are exposed to currency fluctuations, and there is further risk that the foreign currency will decrease in value against the investor's reference currency. This is a merketing document.
